

# Be a Hero to Your Employees

Your employees' children may be eligible for Virginia's child health insurance program – **FAMIS (Family Access to Medical Insurance Security)**.

The **United Way Insurance for Children Project** can help your employees enroll their children.

Parents of children with health coverage miss less time from work.

## What You Can Do

- Display a flyer or poster in key locations – break rooms, bulletin boards, etc.
- Insert information with employees' paychecks, staff email or other communications. United Way can provide materials.
- Include an article in an employee newsletter or bulletin.
- Provide information in packets for new employees.
- Invite an *Insurance for Children Project* representative to meet with employees on-site.
